Virtualization Solutions

Virtualization Solution

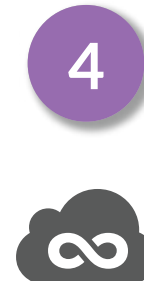

Your IT organization will be far less efficient.

Your organization will be at increased risk for revenue loss.

Your business will be less agile and less flexible to new opportunities.

You won't be putting in the right technology for next-generation business.

A staggering **\$7,900 a minute** is the cost of unplanned data center downtime.

Virtualization Solutions

Our Competencies

- ! Server Virtualization
- ! Storage Virtualization
- ! Network Virtualization
- ! Business Continuity
- ! Cloud Management and Automation
- ! Hybrid Cloud
- ! Cloud Provider

BeyondBox Solutions deliver **VMware implementation** Solution & **24x7** support to organizations of all sizes.

Customers can rely on VMware to drastically reduce capital and operating costs, improve agility, ensure business continuity and strengthen security.

WHY CHOOSE US?

VMware Enterprise Solution Providers

VMware Certified Professionals

Highly competent product specialists

Big Data Analytics

Together we power data driven transformations..

Hadoop Ecosystem

- ! Big Data Strategy/Roadmap
- ! Data Lake Implementation!
- ! Industry use cases
- ! Discovery & Analytics
- ! Governance

Enterprise Data Warehouse

- ! EDW Architecture
- ! Database Administration
- ! BI Reports/Dashboard Development
- ! Design & Implement industry data model

Managed Services

- ! SLA based end to end MS
- ! Managed Services for Hadoop
- ! Managed Services for EDW
- ! Cloud Managed Services

More data has been created in the past 2 years than in the entire previous history of the human race.

Within five years there will be over **50 billion** smart connected devices in the world, all developed to collect, analyze and share data.

Why Us?

Promising & futuristic idea

Signed deals with international clients

A stellar growth rate within 1st six months

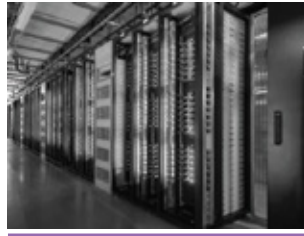

Leadership with experience of 20+ years in the industry

Dedicated Cloud Servers

On-demand dedicated servers customized to your variable needs.

Managed WordPress Hosting

Experience a Fully Managed, Blazing Fast & highly secure WordPress Hosting.

High-Performance Architecture

Cutting-edge infrastructure backed with unmatched speed & reliability.

Autoscalable Cloud Hosting

Effortlessly scale your plan on clicks as you grow your business.

Getting Started Is Super-Easy!

Deploy & manage servers in a blink, perform migrations on clicks, scale your plans, and enjoy a frictionless experience of browsing through myriad of options available in our intuitive Devrims dashboard enabling you to experience the true essence of a Managed Cloud Hosting platform while also giving you complete freedom to customize and manage your infrastructure on your own terms.

Deploy Server In Seconds

Scale Server On Clicks

Install Applications Instantly

Manage Multiple Servers Easily

Choose Your Own Tech Stacks

One-Window Solution

One Platform! Multiple Apps

Host as many apps as you want on a single server without any extra charges or feature restrictions.

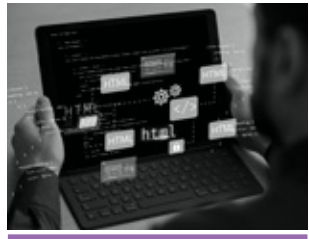

Global Cloud Infrastructure

Our performance-focused hosting platform is powered by the industry's leading cloud IAAS providers.

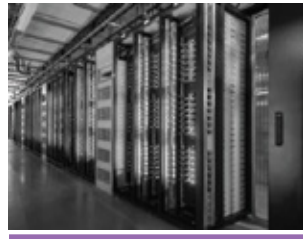

Seamlessly scale on clicks, choose your own Tech Stack, operate with full freedom and innovate in complete peace because with Devrim, you are limitless.
